It is an industry leading HCM solution that provides a fully integrated system that replaced our previous HR information system (Lawson) and application system (PeopleAdmin). Workday provides a full service HCM solution that eliminates the need for custom built integration between multiple systems (as we had with our previous systems) which enhances efficiency and creates more streamlined processes. This enables faster innovation, easier upgrades, and dynamic peer-to-peer collaboration within the Workday system. Workday provides additional functionality for the Board and its member agencies beyond what was viable with our previous systems, including performance management, job description management, and enhanced reporting capabilities, among other functionality. The current contract with Workday will expire September 30, 2023. The

contract renewal is October 1, 2023 through September 30, 2028, in the amount of \$575,979 for years one through four, and the amount of the fifth year is \$575,982.

III. Jurisdiction Contracts

- A. The County is seeking pre-approval to engage in a contract between Jefferson County General Services and a Contractor to be determined. The contractor will provide architectural services related to the design and construction/renovation of an existing breakroom located at the Center Point Multi-Services Center and include services of an independent contractor to perform the designed renovations. This is a one-year contract to be executed upon approval, at an estimated cost of \$500,000. Based on the temporary and sporadic nature of the services, this contract is recommended for approval.
- B. The City of Birmingham is seeking pre-approval to engage in contracts between individuals who will serve as either investigators or mediators in support of the Mayor's new Public Safety Advisory Committee, which is being created to improve relationships between the community at large and the City's Police Department. Contractors will either investigate complaints presented to the Committee, or mediate the matters with an eye toward finding a solution. The City wants to engage vendors as needed, for the next twelve months, and expects to spend no more than an aggregate amount of \$150,000. Based on the sporadic nature of the services, and the need for anyone in these roles to remain independent, these contracts are recommended for approval contingent on the established contracts being submitted for file upon execution.

C. Recommendation that the Board approves a new contract between the Jefferson County Compliance Department and Pages and Posts. The contractor will assist with the development of multiple County-wide organizational/governance program documents, including producing a Code of Conduct & Ethics, Compliance Framework, County Rules, a JeffCo Way document, a Safety Manual, and a new Employee Handbook, etc. Final comprehensive documents and marketing tools are expected to be completed as sub-projects (phases), and each sub-project is expected to last 7 to 10 weeks. Once the documents are produced and implemented, they will be maintained and updated on an ongoing basis by County staff. The overall project is expected to be completed no later than 12/30/2025, at a cost not to exceed \$85,000. Based on the fact that the contract is being used to address critical business needs, and will be temporary and sporadic in nature, this contract is recommended for approval.

D. Recommendation that the Board approves a new contract between the City of Homewood and the Cahaba Solid Waste Authority for the collection and treatment (disposal) of the City's solid waste and refuse (including single-family residential garbage, infectious waste, trash, hazardous waste, recyclables, leaves, and storm debris) for the residents and certain municipal-owned buildings and parks within the corporate limits. This is an 8-year contract, with an anticipated cost of approximately
